Scene Page (select choice from dropdown)	Type of Change (select from dropdown)	Change From (one actionable item per row)	Change To	Internal Reviewer Name	Reviewer Notes
Slide 16	Image	GLOBAL: Update the Dialogue pagetype template.	Add visible UI labels near vertical dialogue buttons (double chevrons). Add a text box above the upward-pointing chevrons that says “Rewind” and above the downward-pointing chevrons that says “Forward.” These labels should be consistent across all dialogue page types.	Terry	This change replaces outdated instruction referencing UI elements no longer present. Labels improve clarity and interaction across all dialogue-type pages. Applies globally.
	Other	GLOBAL: Update the course menu. These screenshots will need to be updated in the Mod 0/Help Lesson James creates.		Terry	For Naomi: - Menu levels need to be updated. - Titles need to be unique (i.e., no two titles can be the exact same).
Slide 4	Image	UCA process stages	UCA Process Stages	Terry	Make the title title-case.
Slide 5	Text		Add missing text to close the popup: "Select X on this overlay to close and return to the AAF Pathways."	Terry	For all popup textboxes the instruction to close the popup is missing.
	Other	Mod 0/Help Lesson: Added a slide to the Help Lesson PowerPoint of the tooltip with the rewind/forward button text (see CR# 11 above). Please be sure this is added to the Help Lesson if it has already been created.		Terry	James In addition to “Change From column”, a separate slide has been added directing the learner to select the flowchart icon.
Slide 15	Text	GLOBAL: Update markdown. Welcome to Lesson 2: Understanding the UCA Pathway!		Terry	Remove bold from "Welcome to Lesson 2:" in main text so it's consistent with Lessons 3 and 4. Then make all "Welcome to Less..." a level 2 (##) header so it's like the Welcome to Lesson 5 page on 57:acq0130-02793.
Slide 34	Text	GLOBAL: See Reviewer Notes.		Terry	Indent the ELOs one level, OR remove bullet from TLO so it doesn't appear as the same as ELOs.

Slide 40	Function			Terry	For Brandy/James: Is this ShortSim intended to continuously loop?
Slide 50	Image			Terry	Is this a client graphic? If not, would it be easier to distinguish between the sections (particularly orange and yellow), if orange and yellow boxes were more contrasted? Or better yet a different color altogether?
Slide 50	Text	Revise the list to the following: Advocate (Blue): Highly committed and highly engaged. Sponsor (Green): Highly committed but not highly engaged (e.g., provide funding or other important resources.) Apathetic (Yellow): Neither engaged nor committed stakeholders who are indifferent. Adversary (Red): Stakeholders with no or negative commitment but highly engaged, actively opposing the objective. Skeptic (Orange): Stakeholders with no or negative commitment and low engagement.		Terry	Would it be better to have the text match the order of the graphic? If the list is intended to be written the way it currently is, please ignore.
Slide 52	Function	1. For each character, the associated content in the textbox (after clicking their names) has extra top padding. 2. The buttons need to align with each character.	1. Please move text up. 2. Please fix the x-coordinates for these so they are in front of the appropriate avatars.	Terry	James
Slide 64	Text	Select Rewind or Forward to continue.	Select Rewind or Next to continue.	Terry	Also remove the italics.
Slide 74	Text	Select the four milestone phases, then select Next to continue.	Select Forward, then each of the four milestone phases, then select Next to continue.	Terry	
Slide 78	Text	Taylor Brooks: Congratulations! You have completed the The Urgent Capability Acquisition course.		Terry	For Naomi: The text says "Taylor Brooks," but the background has three people on it. Either change graphic so only Taylor Brooks is there, or remove "Taylor Brooks:" from the text. Also remove the first “the” in “the The”.
